Q. How can I find Bid Results, and Bid Tabulations?

A. Bid Results and/or Bid Tabulations can be found on the State Highway Administration's web site at: [www.roads.maryland.gov](http://www.roads.maryland.gov) Go to "Business"; "Contracts, Bids & Proposals"; "Search by Contract Number, Contract Date". Under the "Contract Search" dropdown, find the contract number you are seeking information on and click on the "Search" button. For your convenience here is the link to the search page:  
<http://www.roads.maryland.gov/pages/cicsrch.aspx?PageId=857>

As the information becomes available, you should find the 'Plan Purchasers', 'Bid Results', and 'Bid Tabulations'. Typically, for maintenance contracts, the previous contract's information can be located under the contract number listed directly above the current contract number out for bid. The contract number would typically be the same except for the last two numerical digits, which represents the year the contract is scheduled to expire.

Q. What is the difference between the eMM 'Amendment' and the State Highway Administration's Addendum?

A. Amendments in eMM are automated notifications sent out from eMM for any change made in the eMM system. An amendment is not the same as an Addendum (changes) issued for the contract documents (IFB/Plans). An Addendum will have a separate file attached to eMM with "ADDENDUM NO. #" on the first page of the document. The Addendum Receipt Verification Form should only include the number of Addenda issued; which may be different than the number of amendments in eMM.

Q. How can I view the "...qty.z" file attachment and what is it?

A. The "...qty.z" file is a complementary text file that list the Contract's bid items and their quantities that are in the IFB's Schedule of Prices. It can be used for producing an electronic Schedule of Prices if a contractor chooses to do so. To

open it, Click on the file to download; SAVE it (do not open it directly); and then right click on the file and choose the option to “OPEN WITH” Notepad.
